

Lee Evans Partnership part of winning BSF Consortium—14/02/08

Lee Evans Partnership is part of the preferred bidders' team, led by Land Securities Trillium and Northgate Information Solutions, which will deliver the first phase of Kent County Council's £1.8 billion Building Schools for the Future (BSF) programme.

A new £600 million public private partnership between KCC, Land Securities Trillium and Northgate Information Solutions and Partnerships for Schools (PfS) will refurbish or rebuild secondary schools and transform the delivery of education in the Gravesham, Swale and Thanet districts by 2014.

Land Securities Trillium and Northgate Information Solutions were chosen as Kent's preferred bidder after a stringent selection and scoring process in line with European Union procurement rules.

KCC will now form a Local Education Partnership (LEP) with Land Trillium and Northgate Information Solutions and PfS which will be the body responsible for delivering the first phase of Kent's ambitious BSF programme. The LEP will be a long-term partnership that undertakes to build or refurbish schools and maintain them properly over their lifetime.
