## Lee Evans Partnership win Green Apple Award

**01/07/08**

Lee Evans Partnership was presented with a National Bronze Winner Award in the Housing Association category by David Bellamy OBE at the recent International Green Apple Awards held at the Tower of London on Monday, 2 June.

The award-winning scheme, Woodbourne Gardens, a development of 5 three-bedroom terraced homes in Wallington, Surrey, for client Bourne Housing Society, delivers low levels of annual energy consumption and has achieved the coveted BRE's Ecohomes highest rating of 'excellent' (four star).

The International Green Apple Awards for the Built Environment and Architectural Heritage were launched in 2000 and they have since become a prestigious annual event: one of the major award schemes recognising and rewarding environmental endeavour in this sector around the world.

The Green Organisation is an independent, non-political, non-activist, non-profit environment group dedicated to recognising, rewarding and promoting environmental best practice around the world.
